29th January 2016

Dear Rawal

Thank you for your enthusiasm in advancing chemistry education. By registering for Learn Chemistry Partnership, you've connected you and your teaching institution with the world's leading chemistry community – and all our tools and resources to help you bring chemistry to life in your classroom.

In this information pack, you will find information on a range of support materials, resources and services for students and teachers. Here are just three ways you can use Royal Society of Chemistry support this week to enhance chemistry education in your school:

Register your students age 14–19 for ChemNet

<http://chemnet.rsc.org>

ChemNet provides students with chemistry careers information and online help with tricky chemistry topics. They can also take part in ChemNet events across the country.

Get in touch with the education coordinator in your region

<http://rsc.li/education-coordinators>

Our education coordinators, each in a different region of the UK and Ireland, help schools to make the most of our education resources, events and competitions.

Discover free online resources on Learn Chemistry

www.rsc.org/learn-chemistry

Start inspiring your students today with the latest online resources for all age groups.

Keep looking out for your monthly education e-newsletter. In this you will find out about new resources or discounts and services exclusive to Learn Chemistry Partnership schools.

Soon you will receive an e-mail letting you know how to claim your personal Royal Society of Chemistry membership at no charge, if you haven't already done so. We are committed to recognising and supporting your personal expertise as a chemistry educator. Go to www.rsc.org/membership-and-community to find out more about our extensive member benefits and services.

Thank you again for getting involved in this exciting partnership programme. If you have any suggestions for how we can help you shape future generations of scientists, or would like additional copies of any of the materials in this pack, please contact us at education@rsc.org.

With best wishes,

Schools & Colleges Team
