CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Narmada College of Science and Commerce is an affiliated college of Veer Narmad South Gujarat University, and as such follows a pre-determined syllabus. However, 7 faculty members are the members of Board of Studies -Syllabus Revision Committee in their respective subjects. Many faculty members are paper setters, examiners and moderators at the University level. To make the delivery of curriculum effective, the faculty regularly updates its knowledge with the support of the college. Faculty members are encouraged to attend Orientation/Refresher courses, workshops and present papers in seminars conducted by the affiliating and other Universities. Class wise Timetable is drafted and finalized well ahead of the commencement of the semester. The papers/options are allotted after careful consideration of the qualifications, subject specializations, experience and performance of the teachers. Faculty is encouraged to prepare an active plan for their classroom teaching of each semester even before the academic year commences. The preparation of such a plan helps with effective distribution of syllabus, clarity of curriculum and timely completion of the course. Continuous evaluation is maintained throughout the year by conducting Internal tests after completion of syllabus. The minimum number of working days as stipulated by the university is adhered to every year. For fostering global competencies among students, Classroom teaching is supplemented with seminars, storytelling, quiz, short films, workshops, special lectures, group discussions, Tutorials, Departmental Quiz, paper presentation by the students, projects, individual/group assignments, term papers, educational tours, field trips and industrial visits in a well-planned manner. The marking system is well structured. For example, a 100 marks paper has 30 marks for internal evaluation where separate marks are allotted for attendance, assignments and unit test. In the same way 70 marks paper has 20 marks for internal evaluation. The College organizes interdisciplinary competitions, events, etc. Along with the traditional chalk and talk method, use of ICT based learning has been incorporated in all departments for communication with students to make the teaching learning process more learner centric. The college enjoys technologically enabled and inclusive infrastructure including a well-equipped library, which makes it possible for the students to participate in a modern teaching-learning process. All the laboratories are replenished every year as per the requirement of the curriculum. Record of the regular attendance, award lists and progress of the students is maintained and preserved by the respective teachers. Proper attendance is ensured by giving

warning to the defaulters and by sending timely letters to the parents. Feedback on syllabus is taken from all stakeholders including students, alumni, and corporate employers, and the same is shared with the members of Board of Studies for necessary action. New strategies and programmes are devised to address the issues flagged by stakeholders. The NCC/ NSS unit of the college strives to establish a bond with the community at large through camps/ awareness rallies on current social issues.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The system of mentoring the students has been available in the institution since its inception. Apart from the regular courses of Commerce and Chemistry, Computer Science and Electronics in Science, there are other self-financed professional courses of BCA and BBA in the college. Hence the requirement of monitoring and guiding the students for their grooming which will provide them the edge professionally in future. All the teachers work as mentors for their students. This is the ongoing process till the end of the academic careers of the students who ought to feel confident and be able to share any issue or problem with their mentors and seek their counseling and guidance. The objectives of this system of students mentoring are --- 1. To enhance the students' academic performance by augmenting their focus/attention, regularity and discipline 2. To improve the student-teacher relationship 3. To help the students shape their prospective professional careers In academics, this system is desirable to be implemented as part of their curricula for the final year undergraduate and postgraduate students.

For their project work, the small groups of students are formed ranging from 5 to 20 students in one group depending on the total number of students in the class and the nature of the project. These groups report to the particular teachers and the work is first assigned and explained to them. In Computer Science course, the students come forward with the subjects/topics selected by them. The mentees have to interact with their mentors a number of times as decided and prepare the reports at the end. In Electronics, the students do a major project in the third year and a minor one in the fourth semester as part of laboratory work. The synopsis of the major project is submitted and evaluated in the fifth semester. Along with the project in working condition, a detailed project report is examined in the sixth semester. Apart from the mentoring system in the curricular activities, this system runs through the co-curricular and extra-curricular activities too. These activities are NSS, NCC, Sports and Saptadhara. The groups are formed and mentees are trained and groomed as per the requirement of the specific activity prescribed. Due to this kind of mentoring, the mentees perform very well in the activities/competitions/tournaments at the intercollegiate/university/state/national levels and sometimes at the international level too. In Saptadhara, there are seven types of extra-curricular activities focused upon. Gyandhara deals with honing the elocution, debating and also creative writing skills of the students. There are the other dharas like Natyadhara, GeetSangeethdara, Nrityadhara, Sarjanatmak Abhivyaktidhara, khelkooddhara and so on. Various activities are conducted and the selected students are sent to participate in the events outside the college. Workshops are also conducted in order to develop the special abilities of the students and groom their personalities. In 2017-18, a one-day workshop on language skills was organized by the then coordinator of Gyandhara and a guest expert from eStation language lab from Rajkot had conducted the sessions.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

As per the university norms, the internal evaluation is done by the college and its weighted to 30. The college conducts various assessment activities to continuously evaluate the students. An internal test of 50 marks is conducted at the end of each semester. The assessed answer books are shown by faculty members to the students and the queries are addressed immediately, the student is asked to sign the answer book after he is completely satisfied. Other activities like library assignments, class assignments, quiz, presentations, fieldwork, project work, summer training are various methods for continuous internal evaluation of students. The university has also made attendance compulsory and hence attendance is also a part of internal evaluation. Students falling short of attendance are intimated by the faculty members to cover the shortfall of attendance. Specifically the BBA department generates a monthly attendance record and displays it on the notice board. In case of large shortfall, a letter is also sent to the parents and parents' meeting is also held. The overall internal evaluation marksheet is displayed on the notice board for verification by students to address any discrepancies.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Our college being an affiliated college of Veer Narmad South Gujarat University, Surat follows the academic calendar prepared by university for each academic year. University prepares the examination schedule semester wise for each course which is available on the university website. The students are told to periodically view the website. At the same time the schedule is also shared with the students. The College strictly adheres to the schedule fixed by university for examination and all other related matters. As per the tentative dates suggested by the university for internal examination the college prepares its own schedule to conduct internal examination which is communicated to the students through college notice board.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

One of the most important events of our college is the Annual Function celebration which generally happens on a grand scale during February of every academic year. The students of the college participate with a lot of enthusiasm in this program. In the beginning of the program meritorious students are awarded with gold and silver medals and students performing in others activities that come out with flying colors are felicitated. Following the prize distribution ceremony the cultural program prepared by the students is presented. All the students and parents are invited in the program and also various stake holders attend the function. A similar program was scheduled to be organized in 16th February 2019. All the students participating in the program had started their preparation of program well in advance and the college had also geared up for the program by ordering the gold and silver medals and other preparations of the function. But unfortunately the terrorist attack on our military establishment took place at Pulvama, Jammu and Kashmir on 14th February 2019. In this delicate moment of the country the student council of the college decided to stand with the country and the soldiers and cancelled the celebration of annual function and decided to donate all the funds to the Prime Minister Relief Fund. All the students and the faculty members also participated in the candle march organized to show our solidarity towards the nation. The students of this particular batch have set up an excellent example of values in education which is one of the main visions of our institution This is one of the most touching event in the history of our institution and we as the institution will always remember the student council of 2019 for their gesture.
